HONGKONG, 26TH JULY, 1881.

It would seem that the Woosung
railway muddle is very likely to be
repeated in the North, in the matter
of the Shanghai Tramways.

The true history of the vexed
Woosung business has yet to be
written; suffice it to say now that
we think with justice, that they had
been deceived, and that a march had
been stolen upon them. Consequently,
they resisted its working to the
utmost, and finally succeeded in
forcing its sale. It is true that they
had to pay a pretty price—no less
than the cost of a first-class English
railway—for what was really nothing
more than a "toy" tramway,
but, as they considered that an im-
portant principle was involved, they
did not shrink from the outlay. No
sooner did they obtain possession of
the line than they removed it to
Formosa, and utilised it in connec-
tion with the Coal mines in the
Northern part of that island. With
such an experience to guide them,
it might have been expected that
our Shanghai friends, before setting
on foot in their settlement a some-
what similar undertaking, would, as
a matter of policy, if not out of com-
mon courtesy, have consulted the
responsible Chinese officials in their
neighbourhood. More especially
would this seem to have been ad-
visable if the promoters were really
actuated by their professed desire
to further the true interests of the
whole foreign community. Those
interests, as we maintained a few
days ago, can only be truly served
by working harmoniously with the
natives of the country. If the ob-
jects of the promoters of the scheme
be simply speculative, or to improve
the locomotion for the benefit only
of the few foreign residents, it is in-
telligible that they should elect to
proceed in the manner best suited

to their own convenience, and with-
out regard to the views of the Chi-
nese, though we are far from ad-
mitting that this course would be
a wise one. On the contrary, how-
ever, it is urged, as one of the chief
prospective benefits, that a scheme
of tramways in Shanghai will fur-
nish an example, to be in course of
time followed up throughout the
Empire, of improving the means of
communication and working in-
estimable good. In the face of this
axiom, it seems incredible that some
effort should not have been made at
the outset to secure the goodwill and
co-operation of the Chinese authori-
ties. Yet it appears from the latest
advice that the Taotai has been
ignored altogether in the proposed
undertaking, and has sent, as, under
the circumstances, is natural enough,
a vigorous protest to the board of
Foreign Consuls. The Taotai is the
prefect of the district in which this
scheme, from which so much good is
looked for, is to be carried out. Un-
questionably he is all powerful
beyond the limits of the settle-
ment, and can do much to make war
on the undertaking, at all events in its
wider scope. We fail therefore to
see what was to be gained by ignoring
him. On the contrary, that course
was pretty certain to arouse his op-
position. In this, as in the Woosung
railway, we firmly believe that, if
the matter had been straight-forwardly
explained to the authorities, and
fairly discussed in its different bear-
ings, their support instead of their
hostility might have been fairly
counted upon.

The Chinese are a proud and it
may be, a somewhat stiff-necked race;
but if one thing stands out more
clearly than another, as the result of
forty years of foreign intercourse, it
is that we have gained little in the
long run by driving them. On the
other hand, it cannot be disputed
they are a reasonable and intelligent
race, and open to conviction by fair
argument and practical illustration.
We venture to believe that, if the
Woosung railway question had been
conducted in a wiser manner, and in
accordance with the principles enu-
merated above, railways might ere
this have been in full operation in
many parts of China. The attempt
to trust that measure upon them
proved fatal, for the time at least, to
all such enterprise; and it is to be
feared that this last movement at
Shanghai, if not quickly remedied,
will only aggravate the difficulty.

Our greatly esteemed, although
illogical and grossly ungrammatical,
contemporary, the *China Mail* has
once more come out of his shell.
According to current report, Dr.
Stewart has resigned his appoint-
ment as Acting Colonial Secretary.
No reliable particulars of the reasons
which have led to this step have yet
been made public. The glaring im-
propriety of discussing a question of
this nature in the columns of a news-
paper, when the real facts of the case
are unknown, and all premises could
only be sheer speculation, must surely
have struck the *China Mail*. However
an opportunity presented itself
of covering with sickening
adulation the late Head Master of
the Central School, and of libelling,
vilifying and abusing the Governor
and his supporters, which was too
good to be missed. The extraordi-
nary faith in what the *China Mail*
terms "Dr. Stewart's honourableness
and probity" may exist, although
we certainly never heard the public
put themselves to any inconvenience
to demonstrate their belief; but
there was surely no occasion for our
contemporary going out of his way
to assure us, of what we all know
well enough, that Dr. Stewart was
honest and honorable. These virtues
are not so rare in Hongkong, we
hope, that a special defence was re-
quired on the ex-Acting Colonial
Secretary's behalf. We have not the
honor of Dr. Stewart's personal ac-
quaintance, but he has the reputation

of being a very estimable man, and
a most efficient schoolmaster, and no
doubt deservedly.

Our special purpose in alluding to
the *China Mail's* leader of last night,
which we would have preferred to
ignore with silent contempt, is how-
ever a personal one. The black-
guardly attack on Sir John Pope
Hennessy on this occasion we have
nothing to do with. We have the
utmost faith in the Governor's ability
to defend himself if he considers a
defence necessary. The gist of the
China Mail's insinuations so far as
we are concerned amounts to this:—
The Governor after much labor, has
discovered a medium, the columns of
the *Telegraph*, of making violent pub-
lic attacks upon his own subordinates.
A barefaced instance of this occurred
in the case of Captain Thomsett. The
"Press Commissioner" and his staff,
(who is the "Press Commissioner"?)
driven from purer atmospheres, (the
China Mail and *Daily Press*) had
to seek refuge somewhere else, (i.e.,
the *Hongkong Telegraph*), but their
latest effort proved to be a false move,
and they in a short time stood aghast
at the prospect of a complete exposure
before the Supreme Court. The Gov-
ernor stands revealed as a public
trader of his subordinate, and has
to beseech that gentleman as a personal
favor to allow him to escape from the
consequences of his acts. If all this
be inaccurate, it rests with His
Excellency to show that it is so.
There is a good deal more in the
same strain in the *Mail*; but the
above are the salient features of his
accusation. We may be excused if
our language towards the *China Mail*
is not so courteous as a friendly
contemporary might expect; and as
an honest and honorable journal
would have a right to demand. The
statement that the Governor found
the *Telegraph* a medium for making
violent public attacks on his own
subordinates, or on anybody else, is
a cowardly lie. The assertion that
His Excellency had anything what-
ever to do with what the *China Mail*
calls the "barefaced instance" refer-
ring to Captain Thomsett, has not even
a shadow of truth in it. The
opinions expressed in this paper on
Chinese Emigration, and on the
examination of emigrants in the
steamship *Glamis Castle* by Captain
Thomsett, Mr. Gerrard, Dr. Stewart,
and Dr. Eitel, were solely our own,
and for these opinions we are pre-
pared to accept whatever responsibility
they may have rendered us liable
to. We declare on our honor that
the Governor of this Colony knew
no more of our intention to write
on the emigration question than the
babe unborn. We declare that the
insinuations of the *China Mail* to
the effect that our columns have
been suborned by the Governor to
traduce his subordinates, or to write
up his policy, or for any purpose
whatever, are blackguardly false-
hoods, which, but for the respect we
owe to ourselves and the law, we
should feel inclined to resent in an
unorthodox fashion. The insinuation
that the *China Mail* is in any one
respect purer, more honorable, or
more honest, than this paper, we
challenge, as a glaring untruth. The
allegation that the "Press Commis-
sioner," whoever he may be, found
refuge in our columns is a scandalous
falsehood.

With regard to proceedings before
the Supreme Court, for what we are
surprised to learn, was considered a
libel on Capt. Thomsett, the *China Mail*
is the first to send us the news
that such steps were ever seriously
contemplated. We heard rumours
that Capt. Thomsett considered his
conduct had been reflected on unfairly.
As we never had the slightest intention
of reflecting on Capt. Thomsett's
character or conduct in any possible
way, we at once considered it our
duty to publicly proclaim the fact.
Our opinions on the subject at issue
are in no way changed, and we are
prepared to accept the responsibility
of our utterances now or at any other

time. We are not an authority on
the law of libel; but if we were
libellous in our remarks on the ex-
amination of emigrants in the *Glamis
Castle*, it was on the Government
and not on Capt. Thomsett. But in
any case we did not go to the extent
of terming any government officer
"a dummy, a nobody, a farce, and a
laughingstock," which is the manner
in which a publication in Saturday's
China Mail speaks of the Registrar
General of this Colony.

LOCAL AND GENERAL.

We are informed by the agents of the
Union Line that the steamer *Antonio*
left Singapore for this port yesterday.

We are informed by the Agent
that the Messageries Maritimes Co.'s
steamer "*Amazone*" with the outward
French Mail left Saigon yesterday at
twelve o'clock (noon) for this port.

We observe from the *Straits Times*
of the 16th instant, that Captain E. M.
Smith, for many years manager of the
Tanjong Pagar Dock Company, was on
the preceding Saturday waited on by
the employees of the Company, and
presented with a cheque for \$1,000 to
be invested in the purchase of a ser-
vice of plate when he reached England,
as a token of respect and goodwill.
At the same meeting the Pilots of Sin-
gapore presented Captain Smith with
a cheque for \$120 to purchase a silver
cup, as a mark of their appreciation
of his services to the Pilot Board for
many years.

According to a telegram from Lon-
don, dated the 23rd instant, the Italian
Government is reported to be prepar-
ing a memorial to the Great European
Powers, proposing a solution of the
monetary problem. We shall wait
rather impatiently for some details of
this proposal, which is to settle, off-
hand, questions which for years have
puzzled the greatest financiers of the
age.

The French Chamber of Deputies,
with a careful eye to the immediate
future, has voted an additional sum
of two and a half million francs for
Naval expenditure in the Gulf of Ton-
quin. Those who have any interests
at stake in Tonquin will however be
glad to hear that the Minister of
Marine and the Colonies has disavowed
a policy of annexation. *Nous ver-
rons, mes amis!*

A telegram has been received by
the naval authorities here announcing
the death of Commander W. G. Scott,
of H. M. S. *Lynceus*, at Shanghai.
No further particulars are yet to hand
accounting for his rather sudden do-
mise, but it was known that he had
been in a rather indifferent state of
health for some time past, and it is
feared that the worry and anxiety of
mind attendant on the inquiry now
going on at Shanghai into the *Hochung-
Lapwing* collision, acting on a sensitive
temperament, has tended to accelerate
his death.

We have been favored by Captain
Croad, of the C. M. S. N. Co.'s steamer
Tu-yue, which arrived here yesterday
afternoon with the following report of
a wreck he met with on his last trip
from Shanghai.

July 22nd, 1881.—Noon, observed a
wreck on the port bow surrounded by
Chinese boats; steered for her, and
sent Mr. Williams, 2nd Officer, away to
get information. 1 p.m. Mr. Williams
returned and reported the vessel to
have been a three-masted schooner,
with fore mast and jib-boom standing,
the decks and sides burst in; the na-
tives were taking out beans or bean
cake; she was nearly on her beam
ends with starboard side out of the
water, and both anchors were down
and the tide running past her, so that
she is a danger in the track of ships;
lottery visible on her stern; also an
American flag in the centre. "S. Hall.
O.N." Bearings, Magnetic.—Hea. chu, N.
by E. $\frac{1}{2}$ E., High Chitok, N. W. $\frac{1}{2}$ W.,
Soudan, W. $\frac{1}{2}$ S., Lat. N. 29° 17', Long.
E. 121° 53'.

There is little doubt, we fear, that
this is the *Annie S. Hall*, commanded
by Captain Nelson. The natives whom
Captain Croad interviewed at the

wreck were unable to give any reliable
information as to the fate of the crew,
and it is to be feared, that as the dis-
tance was within a short distance of land
and nothing can be traced of them, the
worst may be anticipated.

The M. M. Co.'s steamship *Tunais*
came out of the Cosmopolitan Dock
this morning, her place being taken by
the German steamer *Oktava* and the
China Merchant Company's steamship
Tun-tung. The American barque *Signal*
goes to Kowloon to-morrow.

The case *Graca v. Pitman* came on in
Original Jurisdiction before Acting
Chief Justice Snowden, and Mr. Jas.
Russell, Acting Puisne Judge, yester-
day morning. Mr. T. C. Hayllar, Q.C.,
counsel for the plaintiff was called on
to show cause why his petition should
not be dismissed, without any answer
being required from the defendant.
After hearing legal arguments bearing
on the subject from Mr. Hayllar, and
a reply from Mr. J. J. Francis, who
represented Mr. Pitman, their lordships
reserved judgment.

Many persons seem to imagine that
this colony was subjected to a distinct
and most perceptible shock of earth-
quake at an early hour yesterday
morning; houses are said to have been
shaken, articles of furniture knocked
against each other, and indulging
in little antics of their own, ships
also rocked at their anchorage,
and many other wonderful phenomena
are said to have occurred. All this
however was supposed to have taken
place about half past four o'clock in
the morning, at a time when most of
Her Majesty's loyal and true subjects
might be expected to be beyond the
reach of anything more alarming than
a painfully distinct night-mare. It
would be a matter for curious specula-
tion to ascertain the number of heavy
suppers that had been taken the pre-
vious evening.

**LATEST COMMERCIAL
INTELLIGENCE.**

Tuesday, July 26th, 1881.
One o'clock P.M.

The expected results of the tend-
ers for the Imperial Loan have given
Bank Shares a rare impetus, as from
109 per cent premium they gradually
advanced until good business was
done at 114 and 115, cash sales. A
large number of Shares have changed
hands at these prices, and the stock
is quite firm at 115. Some import-
ant transfers on tick were also effect-
ed at 117 for August, and 123 for
December. A small lot of China
Fires were sold at 297, a slight ad-
vance on our former quotation.
Docks were on the market at 58 per
cent premium, and a few sales book-
ed. The expected move in Steam-
boats did not take place, although the
Company's Report, which will be
found in another column, is an ex-
tremely satisfactory one. Hotels are
on offer at 112½ without leading to
business, and we have no changes to
report in connection with Sugars, or
other stocks.

THE HONGKONG, CANTON, AND MACAO STEAM-BOAT COMPANY, LIMITED.

REPORT

of the Board of Directors to the Ordinary Half-yearly Meeting of Shareholders, to be held at the office of the Company, on Thursday, the 28th July, 1881, at 3 p.m.

The Directors beg to submit to the Shareholders the usual Statement of Accounts for the half-year ending 30th June last.

After paying running expenses, salaries, premia of insurance, repairs and all other outgoings, there remains, including \$8,609.07 brought forward from last account, the sum of \$79,661.72 at credit of Profit and Loss Account. From this sum, the Directors recommend that \$36,000, or 6% on the Capital, be paid as dividend for the half-year, that \$35,000 be placed at credit of Depreciation Fund, and that \$2,750 be appropriated as Directors' and Auditors' fees leaving a balance of \$5,911.72 to be carried forward to new account.

The hull of the *Kinsan* has proved on survey to be in such a condition as to require a heavier expenditure for repairs than the Directors have deemed it prudent to incur. She was put up for sale by auction, but no acceptable offer having been obtained, it has been decided, considering the old age and wooden construction of the vessel, to remove the machinery and apparel, which can be utilized hereafter, and to dispose of the hull and boilers. The steamer stands in the books of the Company at \$45,000, and being valued, in her present condition, at \$20,000, the Directors propose that the difference of \$25,000 be written off.

The Depreciation Fund, which at the date of the last accounts stood at \$100,000, will, if the proposals of the Directors be sanctioned by the Shareholders, be increased, by the appropriation of \$35,000 from Profit and Loss account, less \$25,000 written off the value of *Kinsan*, to \$110,000.

To replace the *Kinsan*, the Directors have contracted with Messrs. A. and J. Ingles, of Glasgow, for a steamer to be built of steel, with all late improvements, complete and ready for sea, for the sum of \$14,000. The steamer is to be delivered in the Clyde in March, and should be ready for service in Canton waters in May next.

The *White Cloud* was thoroughly overhauled in March last, and the *Powen* this month. The *Kubiang* is to undergo her annual survey shortly. Messrs. A. Andue and W. Keswick having resigned their seats at the Board on leaving the Colony, Mr. Wm. Rogers and the Honorable F. B. Johnson have accepted the Directors' invitation to the vacant seats, and their election requires confirmation by the Shareholders.

The retiring Auditors, Messrs. H. Smith and J. Hauschild, offer themselves for re-election.

E. R. BELLIOS,
Chairman.

SHANGHAI.

The following correspondence relating to the proposed Shanghai Tramways has been published in the *N. C. Daily News*:—

Shanghai, 9th July, 1881.

Sir,—I have just received a letter from Taotai Liu, translation of which

I beg to enclose, dated the 8th inst., referring to the proposed construction of tramways within the Settlement. Although I have no time to lay this letter before my colleagues, I thought it advisable to make you, without prejudice, at once acquainted with the fact that the Chinese local authorities object to the said scheme being carried out.

I have the honour to be, Sir,

Your obedient servant,

Focke.

His German Majesty's Consul-General, Senior Consul.

H. R. Hearn, Esq.,

Chairman, Municipal Council, Shanghai.

[Translation.]

Shanghai, 8th July, 1881.

Sir,—From the foreign newspapers I have learned that the construction of a tramway in Shanghai by some foreigners has repeatedly been spoken of. I do not know whether this is true or not. It is certainly an innovation in China. In the foreign Settlements of Shanghai live a great many Chinese and foreign merchants and other people, and on the roads and in the streets there is constantly an immense traffic to and fro. If now the tramway should come into operation, the streets would be thronged. Therefore, the foreigners who have conceived this scheme, ought to be directed not to carry it out, in order to cause no inconvenience and to avoid accidents, which undoubtedly would happen. I have considered it my duty to address to you this letter, trusting that you will take the cognizance of its contents, and have the construction of the tramway inhibited.

I also hope that you will favour me with a reply.

I have, &c.,

TAOTAI LIU.

Translated by
C. FREUSBERG.

Shanghai, 12th July, 1881.

Sir,—I have the honour to acknowledge receipt of your letter of 9th inst., forwarding translation of a despatch from H.E. the Taotai Liu on the subject of the proposed tramways in the Settlement, for which I beg to thank you.

As you had not yet been able to lay this communication before the Consular Body, it was deemed inexpedient by the Members of the Council to not refer to it at the meeting of Ratepayers held yesterday afternoon, the more so as its production would surely have drawn away discussion from the real merits of the question before them.

The Council will feel much obliged by your communicating to them the tenor of the reply of the Consular Body to the letter of H.E. the Taotai.

I have the honour to be, Sir,

Your obedient servant,

H. R. HEARN,

Chairman.

To Dr. Focke,
H.I.G.M.'s Consul-General and Doyen of Consular Body.

THE TYPHOON.—The s.s. *Kua-shing*, Captain Anderson, went out on Saturday, by orders of the Commissioner of Customs, in case any vessels might have been wrecked or disabled in the typhoon. She spoke several steamers, all of whom reported that they had seen no wrecks nor vessels in distress. A good deal of damage was done to the Great Northern Telegraph station at Lung; the jetty was washed away; the tide was so high that a sampan was washed up against the house, a garden was ruined. A junk lay high and dry at the French Godown, and another bottom up on Pheasant Point, while sampans were seen in strange places—many of them in the fields.—We regret to hear of some loss of life among the boat population. A sampan was capsized, and its four occupants precipitated into the water, near the *Yuen Puh*. The lowdah of the yacht *Arctur* saved two of them by throwing life buoys to them; the other two were drowned. One body, that of a girl, was washed ashore on the Bund, but that must have been in the water for some days, being in an advanced state of decomposition. No other human body was found in the limits of the Settlements; the sampans had in fact moved to safe positions. On Saturday was said to be the strongest gale we ever recollect in Shanghai.

From the old residents we hear that in 1864 there was a severe gale! and seafaring men consider the blow of 3rd July 1877, to have been stronger. It was shorter, it only lasted 4 hours; the readings of the barometer however, were not so low as on Saturday; 29.28 to 29.46 being the minimum figures given from steamers alongside the wharf in 1877, whilst 29.09, 29.14, and 29.19 were given last Saturday. The wind went round during Friday afternoon and Saturday morning from N.E. to S.S.W.; indicating that we must have been on the skirt of a typhoon, the centre of which passed to the south of us. It doubtless came from the direction of Japan.—The foreign shipping appeared so far to have escaped without injury; there were four vessels at anchor inside the Light Ship, all of which rode out the gale in safety. Two cargo boats of Messrs. Wheelock & Co. conveying tea to the P. & O. steamer damaged their cargoes; they consisted of about 850 packages of tea; the risks on which amounted to about Tls. 8,000 distributed among three local offices; the Union, the North China, and the China Traders. Our morning contemporary gives a very singular history of a previous gale; they pitch upon a lovely Sunday in 1876, the 2nd July, which we recollect well for the beauty of the atmosphere, and say the Consular flagstaff was blown down, and the Police Hulk sunk; those events happened on the 3rd July, 1877. He gives the lowest reading of the barometer as 23.9. Our curious contemporary calls a thunderstorm on the 2nd June, 1876, a "Typhoon" as the storm lasted an hour and a half; it was then that Reynolds' Folly fell down. The *Hokkai* coming from the South, seemed to have felt the sea disturbance; the *Hidetsoshi Maru* met with a strong S.E. gale and a heavy sea; and we understand the *Wychiffe* from Newchwang was two days in a gale; she has put in to Woosung for coal, on her way South.—*Mercury*.

The following interesting items were omitted from our summary of news received by the last American mail:—

New York, June 23.—The *Herald's* London special says: Mr. Parnell has made up his mind to revisit America, in order to extend and consolidate the Land League organizations. He is convinced that the Land bill cannot be regarded as a final settlement of the Irish land question. He will not leave London, however, until the Lords have sent the measure back to the Commons, as in case they should seriously mutilate or reject the bill, a grave political crisis would arise, and Mr. Parnell's friends desire that he should be on the spot to guide the party at such a critical period. The rumor that he will go when the bill passes through committee, leaving the party under the leadership of Mr. Justin McCarthy, is quite unfounded.

DAVITT TO BE RELEASED.

New York, June 23.—A *World's* London cablegram says: Davitt, I hear, will probably be released at the close of the session. He was the heart and soul of the League organization in its palmy days, but if he were at liberty to resume work to-morrow, he could accomplish nothing; so dead is the agitation. There are hundreds of tenants who would join any movement looking to a general strike against paying rent, but the vast majority admit that the landlord is entitled to Griffith's valuation, and that is now being freely paid, while many are paying in full and trusting to the Land Bill for relief in the future. Davitt has not been placed among the ordinary convicts, but is kept by himself in the hospital, being allowed the run of the garden. He said to a visitor from Dublin yesterday that he had nothing to complain of, except of course, the restraint and prison regulations forbidding newspapers. He hinted that he was aware that the League was going to pieces, and that he had heard of the split among the Parnellites, and seemed to be much grieved over it.

Mr. Moore begs to recommend his
GOGO SHAMPOO WASH to the public as
unrivalled by any preparation ever pro-
duced for promoting the growth of the
hair. The basis of this compound is
made of soap root; the natives of the
Philippine Islands never use anything
else for washing their hair; they are
never found bald, and it is quite com-
mon to see the females with hair from
5 to 6 feet long. By constantly using
this Shampoo WASH as directed, you
will never be bald. The proprietor
offers the Wash to the public entirely
confident that by its restorative pro-
perties it will without fail arrest decay-
ing hair. It completely eradicates
scurf, dandruff, and cures all diseases
of the scalp. It does not contain any
poisonous drugs. By its cooling and pro-
perties it allays the itching and fever
of the scalp, which is the great cause
of people losing their hair.

Mr. Moore has succeeded in being
able to put this wash up in bottles
without allowing it to ferment, and he
will guarantee it to keep any length of
time in any climate.
